

DWARKESH GOHEL

Web Developer

Veraval, Gujarat, +916353362162, [Email](#) [Portfolio](#)

PROFILE

I experienced web developer, designer, graphic artist, and game developer passionate about creating immersive experiences. Skilled in coding, designing, and developing scenes for web and game environments, I am constantly inspired by new ideas and challenges. I thrive on learning and honing my technology and creative vision skills, always seeking to innovate and push boundaries in my work across multiple platforms

EXPERIENCE

Plutus Technologies Pvt Ltd.

Feb-2023 -> Now

- **Property Watch** (React, Redux, Firebase, Bootstrap, Scss, RestAPI)
 - Developed a web application from scratch using React.js for Property Watch, integrating user authentication and data management with Firebase.
 - Designed intuitive user interfaces (UI) to enhance user experience and interaction on the platform.
 - Implemented a daily deployment process to ensure continuous improvement and meet client expectations effectively.

(Property Watch is a comprehensive web application designed to facilitate property inspection and collaboration management specifically tailored for users in the US and Canada.)

- **INSIDE** (React, Node, Express, SQL, Redux, PrimeReact, Scss, RestAPI)
 - Developed a web portal from scratch using the latest technologies, overseeing the creation of all modules and implementing reusable layouts for future scalability.
 - Conducted weekly team meetings to strategize and plan for future development, ensuring alignment with project goals and timelines.
 - Managed backend operations efficiently using Node.js and SQL, including integrating new policies and maintaining data integrity and functionality.

(Inside is an EMS platform encompassing time tracking, leave management, project oversight, client relations, employee reporting, policy management, and an HR portal for comprehensive HR and project management solutions.)

- **TSP** (React, Redux, Express, Node, SQL, Mapbox, Stripe)
 - Designed and optimized the database schema for streamlined data management, ensuring efficiency and scalability.
 - Created scalable UI designs for the frontend, enhancing user experience and visual appeal.
 - Managed user, provider, and superuser roles, implemented an email system, and integrated a payment system for seamless transactions. Additionally, utilized Mapbox API for map management and developed APIs for backend functionalities, contributing to a smooth and user-friendly platform.

(Tiffin Service Provider is an innovative platform connecting users with tiffin providers for daily orders, featuring seamless online payment options and provider analytics for enhanced user experience and business insights.)

- **PartNote** (Nextjs, Typescript, Convex, LiveBlocks, Tailwind)
 - Developed Partnote from scratch to deployment, utilizing TypeScript and implementing new authentication mechanisms like Clerk.
 - Managed real-time actions on shared boards, integrated a real-time database with Convex, and designed the UI using Figma for a seamless user experience
(Partnote is a real-time collaborative notes-taking web application for seamless teamwork, featuring organization management capabilities to streamline communication within teams.)
- **Bingepedia** (React, Node, Express, SQL, Redux, MUI, CSS, RestAPI)
 - Designed the frontend UI for Bingepedia, creating a visually appealing and user-friendly platform for discovering and managing media.
 - Managed the backend system for users' watchlists, including deployment on the server to ensure seamless functionality and performance.
(Bingepedia is a visually appealing platform that allows users to discover trending media such as movies, series, documentaries, etc., and save them to their watchlist or mark them as watched.)
- **GNT** (HTML, CSS)
 - I utilized HTML and CSS to craft a visually captivating and user-friendly website, ensuring a seamless browsing experience for visitors.
(GNT Global Nexus Trading is a comprehensive platform for seamless import and export operations, connecting businesses globally.)

EDUCATION

Master of Computer Application (**MCA**)
(Gujarat Technological University)

2023

Bachelor of Computer Application (**BCA**)
(Gujarat Technological University)

2021

SKILLS

Frontend

React, Nextjs, Redux, Shadcn, Tailwind,
Bootstrap, Scss, Figma, Illustrator, Photoshop

Utils: Git, Jira, FileZilla

Game Development: Unity, C#, Blender

Backend

Express, Node, Convex, SQL,
MongoDB, AWS, Firebase, Stripe
socket.io,

CERTIFICATES

HakerRank (React)
